

# Shelby/Tuscany Supercharger Dealer Agreement

These vehicles have been tuned by a professional technician using state of the art technology. A data base has been created of your trucks' engine capability, horsepower, performance ability and features.

Failure to follow and comply with the below requirements and guidelines can be easily detected and will void the customers warranty when detected.

## FUEL

- Dealer acknowledges that a fuel octane of 93 or higher is recommended for the life of your supercharged vehicle.
- Do **NOT** use less than 91 octane gasoline.
- **Use of below 91 octane gasoline will cause engine damage and WILL VOID the Shelby/Tuscany driveline warranty.**

## ENGINE BREAK-IN

- Dealership acknowledges and understands they must follow the mandatory break-in procedure listed below.
- For the first 1,500 miles, which includes **ALL** test drives
  - **DO NOT:**
    - Accelerate at Full Throttle
    - Exceed 4,000 engine RPM
    - Tow a trailer or create engine bind from pulling or towing
    - Operate in / use cruise control.
  - Failure to follow the guidelines can cause premature failure to powertrain components and will void the warranty.

## SPECIAL INSTRUCTIONS / REQUIREMENTS

- Failure to follow required break-in instructions (including test drives) will void the warranty.
- Greater than 180-day old fuel must be completely drained, to include fuel tank and lines. The tank must then be refilled with new 91 or higher-octane fuel before starting or driving the vehicle.
- Use **ONLY Ford Motorcraft 5W50 synthetic oil.**
  - **Recommended first oil change at 3,000 miles - then every 5,000 thereafter.**
- Spark Plugs
  - **Exchange every 18,000 miles or less. It is imperative to follow the recommended ignition maintenance to achieve peak performance and not cause possible engine damage.**
  - **Reset gap to .028**
  - Use **ONLY Ford Motorcraft Spark Plugs** recommended by FORD for your truck year, model, and engine size. Again, reset to .028" gap.
- Supercharger Oil must be changed every 100,000 miles or less, using **Ford Motorcraft #XL-4 Supercharger Synthetic Oil.**
- Air Filter should be cleaned using **K&N Cleaning Kit** or equivalent.

- The air filter should be cleaned every **10,000 miles or less**, depending upon the environment the vehicle is used in. Dirt and dust are harsh on an engine; therefore, a clean, functioning air filter is critical to the engines performance and life span.

**Dealer acknowledges and understands,**

- Superchargers installed by Shelby American, and Tuscany Motor Co. have been granted an Executive Order from the California Air Resource Board (CARB) for **post-title sales only**.
- If dealer displays an untitled Shelby/Tuscany vehicle equipped with a supercharger, they may be in violation of CARB/EPA regulations and will be doing so at their own risk.
- Dealer understands and is aware of the Executive Order and if Dealer markets the product in violation of that Executive Order in applicable law, said dealer agrees to indemnify and hold harmless FF US Acquisition Corporation, Tuscany and Shelby from all liability and damages.
- All supercharged vehicles require premium gasoline with an octane rating of 93 or higher when available. Where 93 is not available, do not use less than 91 octane gasoline.
- Fuel age greater than 180 days old must be completely drained from the fuel tank and fuel-lines. then replaced with fresh fuel meeting a minimum of 91 octane. 93 octane fuel is highly recommended.
- Do NOT add octane booster to old fuel. The addition of octane booster will not bring the fuel octane quality to the standard requirement of the engine.
- Modifying the hardware or software from Shelby/Tuscany original specifications will void the driveline warranty.
- Shelby/Tuscany will provide a 3 year/36,000-mile limited driveline warranty on all vehicles equipped with superchargers installed by Shelby/Tuscany, if Ford Motor Company determines the driveline failure was caused by the supercharger.
- They must have a completed & signed Shelby Supercharger Retail **Purchaser Agreement** returned to Tuscany for the Shelby/Tuscany driveline warranty to be in effect and valid.
  - **Until Tuscany receives the Shelby/Tuscany Supercharger Agreement, the driveline warranty will not be activated, and the spare key will not be shipped.**
- Shelby/Tuscany will provide a 3 year/36,000-mile limited warranty on all Shelby/Tuscany components on their vehicles.
- **Minimum Advertised Price Policy (MAP):** Dealer may not advertise the Shelby F-150 for less than the MSRP. Any dealer found violating this policy will be subject to loss of their Shelby vehicle availability.
- If the Shelby retail customer has a service issue and lives outside of your market area, please contact Shelby/Tuscany at [service@drivetuscany.com](mailto:service@drivetuscany.com) and we will direct them to a local Shelby servicing dealer.

No other verbal or written commitments from any Shelby/Tuscany representative will supersede the above dealer acknowledgements.
